

GIS Technician

We are looking for an analytical and logical thinker for our vibrant Data Maintenance team.

- **Successful, innovative and progressive environment**
- **Competitive remuneration package + medical insurance**
- **Wellington based**

Terralink International Limited is a market leader, specialising in innovative technology to deliver land and property information as well as GIS products and solutions. Like you, we're smart, energetic and passionate about what we do.

Our mission is to provide our customers with timely, complete and accurate data, delivered how when and where they want it.

You will be responsible for undertaking GIS data maintenance of Terralink's core datasets, and for contributing to the continued improvement in the quality and capture processes utilised within the team.

You will need a sound understanding of GIS methodology and principles, and ideally you will have one to two years' experience working with GIS data and software applications.

You will need to have strong attention to detail to ensure high quality of data maintenance, and have an enquiring and analytical mind to investigate and resolve data issues. Preferably you will have completed a degree or diploma in Geography, Environmental Science or similar, and have a strong interest in the GIS industry.

A full job description can be downloaded from our website www.terralink.co.nz/profile/recruitment/

You must be legally entitled to work in New Zealand to be considered for this position.

An application form and details on how to apply can be obtained from our website www.terralink.co.nz/profile/recruitment/ or phone 04 915 6012.

Here at Terralink we take great care of our staff, offering fully subsidised medical insurance, a staff profit share scheme, and an employee assistance programme.
